

Site Photographs

8 Photographs of the Clery Park are displayed below showing the current state the ovals.

Concrete Driveway

Current wooden Pavilion

Footpath that terminates on Oval

Aerial shot 1

Outside Current Storage Shed

Roller Door for Storage Shed

Inside Current Storage Shed

Aerial shot 2

Location Map

A map of the location and the surrounding area(s) is developed and sketched below. The map is approximately to scale, illustrating the site map as it is in October 2016.

Sun Path Angles

The direction that the sun rises and sets is important to consider in building design. Particularly with a sports pavilion where many people will be watching sport if they are constantly looking into direct sunlight then it could become a poor design.
